1. Study Sections 4.3, 4.4.

2. Do Exercises 4.1, 4.2, 4.6
    For these exercises, type your solutions in a text editor and save it in a file named `a04written.pdf`. Note
    the lowercase `a`. Hand in the file electronically per the instructions for your course.

3. Do Problem 4.11.
    Download the Pep/9 system and use it to write your machine language program.

    <https://ComputerSystemsBook.com>

    You must use direct addressing.

    Name your program `Prob0411.pepo`. Note the uppercase `P`. In general, Pep/9 assembly language source
    files end in `.pep`, machine language object files end in `.pepo`, and assembler listing files end in `.pepl`.
    Hand in the `.pepo` file electronically per the instructions for your course.
