

1. Study Section 5.1.
2. Do Exercise 4.9.
For this exercise, type your solutions in a text editor and save it in a file named `a05written.pdf`. Note the lowercase `a`. Hand in the file electronically per the instructions for your course.
3. Do Problem 4.14.
Store the -3 in hexadecimal. Do not use the `subtract`, `negate`, or `invert` instructions. You must use direct addressing.
Name your program `Prob0414.pepo` and hand it in electronically per the instructions for your course.
